

New SIC Clamps

SIC Speedy Snap-In Clamps (pat.) for Coaxial Cables.

The SIC Clamps are affordable alternatives to the standard stackable hangers. The high flexible Monobloc stainless steel body, with corresponding claws, allows an easy handling by snapping into 18 mm wide round holes. Available in 1/2", 7/8", 1-1/4" and 1 5/8" versions - compatible with standard grommets and tower standoffs.

Technical Features:

- Monobloc Stainless steel body
- Elastic, simple and strong structure
- Freehand speedy mounting
- Uphead installation
- Sure and soft fastening of cables
- Material: AISI 301 Stainless Steel
